Toast Stable

The first component to complete the full terarrium lifecycle. Non–blocking feedback about system actions that auto-dismisses without interrupting workflow.

Live Demo

Click a button to trigger a toast. Each severity level uses semantic tokens with fallbacks. Auto-dismisses after 5 seconds.

Info   Success   Warning   Error

All Severity Variants

Info
Component submitted to Nursery. All agents in Builder mode.

Success
Toast graduated to Stable. Unanimous 5/5 approval at Canopy.

Warning

Pattern Librarian requests spec-sync work before approval.

Error

Primitive token --t-raw-red-600 detected. Use semantic tokens only.

☒

Anatomy

PART	SELECTOR	ROLE
Container	`.t-toast-container`	Fixed position shell, stacks toasts in reverse column order
Toast	`.t-toast`	Individual notification with slide-in animation
Icon	`.t-toast__icon`	Status icon, severity-neutral color

PART	SELECTOR	ROLE
Content	`.t-toast__content`	Message body area
Title	`.t-toast__title`	Optional bold title line
Dismiss	`.t-toast__dismiss`	Close button, 44px touch target

Jobs to Be Done

DIMENSION	STATEMENT
Functional	Provide non-blocking feedback about system actions (success, error, warning, info) that auto-dismisses without interrupting the user's workflow.
Affordance	Recognizable notification pattern — appears at screen edge, contains icon + message + optional dismiss action.
Emotional	Confirms the system responded to their action. Reduces anxiety about whether an operation succeeded.

Governance Journey

Three review cycles. Fifteen agent evaluations. Zero overrides. Zero vetoes.

Spark
Pre-Nursery signal captured. Toast identified as the primary feedback mechanism across all governance workflows.
SPARK-001

Nursery
All 5 agents in Builder mode. Found: 4 primitive token refs, missing reduced-motion, undersized touch target, spec/CSS mismatch. No rejections — Nursery rules enforced.
DEC-nursery-toast-001 · 5/5 observing

Workshop
Primitive tokens replaced with semantic tokens + fallbacks. Reduced-motion added. Touch target fixed. 4/5 approve, Pattern Librarian requests spec sync.
DEC-workshop-toast-001 · 4/5 approve · majority

Canopy
Spec synced (29 tokens verified). Full three-dimension evaluation. AG did not exercise veto. Unanimous approval.
DEC-canopy-toast-001 · 5/5 approve · unanimous

Stable
First component to complete the full terrarium lifecycle. The system wore its own output and it held.
COMP-001 · shielded

Accessibility

CRITERION	IMPLEMENTATION
ARIA Role	`role="status"` (info/success) or `role="alert"` (warning/error)
Live Region	`aria-live="polite"` or `aria-live="assertive"`
Keyboard	Dismiss button focusable, 44px touch target via `--t-touch-min`
Motion	Slide-in animation disabled under `prefers-reduced-motion: reduce`
Dismiss Label	`aria-label="Dismiss notification"`

Tokens Used 29

Zero primitive references. All semantic. Dark mode coverage verified.
